**TWO DAY WORKSHOP
ON
INTEGRAL EDUCATION FOR TEACHERS
ORGANISED BY
TEACHING LEARNING CENTER**

**Mar Baselios College of Engineering and Technology
Thiruvananthapuram**

21 - 22, June 2019

Course Focus

- ◆ Role of teacher as a mentor or coach for the life and career of students, irrespective of subjects taught
- ◆ Holistic Development of teacher and students – Mind, Emotion, Will and Body
- ◆ Guiding students to discover their purpose, interests and strengths
- ◆ Co-creating learning space in an inspiring and meaningful way

Goal of the Workshop

Teachers learn to contribute towards the Integral Education of the Student. What this means for the student are:

- ◆ Total development of the inner being - Mind, Vital life-energy, Physical and Deeper Self of students, which gives them a better capacity for their outer life learning, work and action
- ◆ Each student is unique and develops differently. If the teacher can observe the inner parts of being of students, they can guide them uniquely. With practice, the spotting of parts of being takes only a few seconds / minutes
- ◆ Student needs to anchor in their core nature, natural rhythm and 'seed' purpose frequency. This can be supported by the teacher by setting up such a style of classroom teaching, complimented by group or individual guidance as needed

Facilitator – Arul Dev

- ◆ Founder CEO of People First Consultants
- ◆ Guest Faculty of IIT Madras for Self Awareness students course & Self Awareness & Higher goals in Education (SAHGE) course for teachers
- ◆ 24 years experience in the field of training, coaching and teaching
- ◆ Anchors 'Beyond Schooling' program
- ◆ Supports holistic curriculum development
- ◆ Guide for several teachers to do their own inner practices, to evolve as integral education facilitators
