SH :BS3.03	Consideration and approval of the Syllabus of Engineering Physics(C) for the	
	B.Tech Computer Science(AI)	
SH :BS3.04	Consideration and approval of the Syllabus of and Engineering Chemistry(B)	
	for the B.Tech Computer Science(AI)	
SH :BS3.04	Consideration and approval of the Syllabus of Communicative English of first	
	Semester B.Tech	
SH :BS3.05	Consideration and approval of the Syllabus of Discrete Mathematical Structures	
	for the Third Semester B.Tech Computer Science(AI) and B.tech Electrical and	
	Computer Science Engineering	
SH :BS3.06	Consideration and approval of the Syllabus of Mathematics for AI for the fourth	
	semester B.Tech Computer Science(AI)	
SH :BS3.07	Approval of the change of the course Probability Statistics and Numerical	
	methods instead of Graph theory in S4 Computer Science	
SH :BS3.08	Consideration and Approval of the course Probability Statistics and	
	Mathematical Techniques for M.Tech Transportation Engineering in the second	
	semester.	

	Section 3 Any other Matter	
SH:BS3.09	Any other matter with the permission of the Chair.	

Minutes of the second meeting of the bos held on 8/2/2021, and syllabus of all new/changed courses of S&H is attached herewith.

Minutes

	(a) Invocation		
Subject	(b) Welcome Note by Chair		
SH:BS 2.01	(c) Confirmation of the Minutes of the First Meeting of the Board of Studies held on 13/11/2020.		
Decision	The Board of Studies approved the Minutes of the First Meeting of the Board of Studies		
Subject SH:BS 2.02	Report on the actions taken/actions pending on the pertinent decisions in the Minutes of the First Meeting of the Board of Studies held on 13/11/2020.		
Decision	The Board of Studies approved the report		
Subject SH:BS 2.03	Consideration of full Syllabus of the Courses to be offered by the Department for Third and Fourth semesters in the B.Tech Programme for approval.		
Decision	 Approved and accepted with the following suggestions: Professional Ethics: Introduce case studies and real life examples in teaching to make students feel interested in the course Arrange talks of one or two hours duration by experts from the field to share their experience Engineering Mathematics - certain modifications suggested For MA0U20A, it is better to include the derivation of Laplace equation (PDE) and solution by the method of separation of variables. As it is a special case of heat equation the derivation is trivial. For MA0M20A, it is better to introduce exponential of a matrix and determination of it by using SVD or Diagonalization, which are already included. This can be used for finding solution of linear system of differential equations, which is also already a part of the syllabus. In MA0U20D, include Modified Euler Method which motivates the ideas Runga-Kutta Methods which are already included in the syllabus. It is also advisable to include Gradient algorithm for optimization in this paper. In MA0U20C, the derivation of the Trapezoidal method and Simpson's 1/3rd rule can be added which is just half a page 		

proof to motivate the student about the numerical algorithms. Also, give the idea of multiple regression methods for curve fitting starting from linear polynomial to nth degree polynomials which is a direct generalization using the least square Techniques. In MAOM20B, include Gradient-based and conjugate Gradient-based algorithms for Optimization. CS: Course on Probability in S3 and graph theory should be introduced in S4 In the paper "Operations Research", some latest technologies is to be included Consideration of the policy guidelines on the conduct of the End Semester Examination, Question paper setting, paper valuation, publication of results, Re-examination/supplementary examination for B.Tech programme under the autonomy scheme 2020. The Board of studies approved the policy guidelines on the conduct of the End Semester Examination , Question paper setting, paper valuation, publication of results, Re-examination/supplementary examination for B.Tech programme Consideration of the policy guidelines on the conduct of the End Semester Examination, Question paper setting, paper valuation, publication of results, Re-examination/supplementary examination for M.Tech programme under the autonomy scheme 2020. The Board of studies approved the policy guidelines on the conduct of the End Semester Examination, Question paper setting, paper valuation, publication of results, Re-examination/supplementary examination for M.Tech programme under the autonomy scheme 2020.
