PRINCIPAL'S MESSAGE

The role of a teacher is multifaceted and essential for the development and education of students. Today, with information easily accessible anywhere and available at fingertips, this role in the modern world has evolved significantly, reflecting changes in technology, society, and educational philosophy. More than providing instructions and imparting knowledge, the teacher needs to be a guide, mentor and motivator. As a facilitator, a teacher creates and manages a learning environment that encourages engagement and exploration. The Indian culture gives immense importance to the relationship between gurus and shishyas. Though the World Teachers' Day is celebrated on 5 October every year, in India, Teachers' Day is celebrated on 5 September, commemorating the birth anniversary of **Dr. Sarvepalli Radhakrishnan**, the first Vice President and the Second President of Independent India, to honour teachers' dedication, commitment and hard work. On Teachers' Day students get the opportunity to celebrate and express their gratitude and appreciation, and teachers get a chance to self-reflect and create a healthy and motivating environment for students.

"The end product of education should be a free creative man, who can battle against historical circumstances and adversities of nature" – **Dr. S. Radhakrishnan**

We proudly bid farewell to the outgoing students, wishing each and every one of them a prosperous life and a highly successful career.

Dr. S. Viswanatha Rao

Birth Anniversary of

Dr. Sarvepalli Radhakrishnan

5th Sep. 1988

"when we think we know, we cease to learn"

Teacher's Day
