The College Day celebrations of the college were officially covered by FRAMES - MBCET. The Chief guest for the same was Aparna Rajeev, Playback Singer.

CHIT CHAT WITH MENTALIST ARJUN

FRAMES - MBCET Photography Club in association with T4Talent organized a talk session with Mentalist Arjun, a master of the mind-bending art of mentalism! where he shared his experiences as a mentalist. Mentalism is a combination of psychology, deception and magic. He delved deep into the mysteries of the human mind, exploring the secrets behind mind reading, predictions, and uncanny feats that seem beyond explanation.

FAREWELL TO FRAMES EXECOM 2023-2024

THE JOURNEY OF DR. SAKUNTALA S. PILLAI AT MBCET

The video can be viewed at: <https://www.youtube.com/watch?v=VfTgeTcTKKY>

Dr. Sakuntala S. Pillai has had a distinguished career marked by significant contributions to academia and research. She served as a Professor and Head of the Department at both the College of Engineering, Trivandrum (CET) and the Government Engineering College, Trichur. Additionally, she was the Director of the LBS Centre for Science and Technology and Principal Scientific Officer at the Department of Science and Technology (DST).

In 2003, Dr. Sakuntala joined the Mar Baselios College of Engineering and Technology (MBCET) as a Professor and the Head of the Department of Electronics and Communication Engineering (ECE). She held this position until 2010, after which she became the Dean of Research and Development at MBCET, serving until 2017.

During her tenure as Dean of R & D, she initiated the MBCET Journal of Research and launched a scheme for internal seed money to promote research within the institution. She was instrumental in organizing several key

conferences, starting with the National Conference BROADBAND '08 in 2008, followed by ComNet10, and the first IEEE International Conference on Green Technologies (ICGT '12) organized by MBCET in collaboration with the University of Dayton which was followed by ComNet16. This initiative fostered a culture of regular conferences at MBCET, continuing to the present day.

After her retirement also, she had contributed significantly as Advisory Board Member for the 3 international conferences organized by the Department of ECE.

Dr. Sakuntala played a crucial role in establishing the M. Tech programme in Telecommunication Engineering at MBCET, inviting industry and academic experts for syllabus preparation, and launching the program in 2012. Under her leadership, the ECE department saw a significant increase in publications, reaching a peak of 75 papers in 2016 during the NBA and NAAC accreditations.

She was also pivotal in setting up the Space Avionics Test and Evaluation Laboratory (SATEL) for VSSC packages on the MBCET campus and served as the Principal Investigator for MBCET's first ISRO RESPOND Project from February 2012 to July 2015.

As a research guide, Dr. Sakuntala mentored several scholars, including Dr. S. Viswanatha Rao, Dr. Jayakumari J., Dr. Luxy Mathews, Dr. Ancy S. Anselam, Dr. Swapna P. S., and Dr. Yamuna K. Moorthy, along with seven other faculty members from various colleges.

Beyond her academic and research contributions, Dr. Sakuntala introduced the Art of Living program to MBCET, promoting stress-free and happy living through breath, meditation, and yoga among the college community.
