

WATER MANAGEMENT CELL

REPORT 2022-2023

ACTIVITIES CONDUCTED (JUNE1st 2022 TO MAY 31st 2023)

SL.NO.	ACTIVITY DETAILS
1	Water Management Cell was reconstituted by order from the Principal
2	CELL Meeting was conducted on 22.02.2023 Meeting Minutes is given below
3	World Water Day was celebrated on March 22 nd 2023. An awareness programme on Water Conservation was given by an Expert Resource person Dr V Subhash Chandra Bose. Details attached
4.	Water Quality Test for the campus water sources was carried out in March 2023
5.	A Photo Story Contest for MBCET students was announced in March 2023. Details given.

Talk on Accelerating Change:

Date: 22 March 2023

Time: 3:00 PM - 4:30 PM

Venue: Laurie Baker Seminar Hall

On 22nd March 2023, the Water Management Cell in collaboration with Prakruthi (Nature Club) successfully conducted a thought-provoking talk session titled "Accelerating Change". The event focused on inspiring individuals to "Be the change you want to see in the world", in alignment with the pressing need for sustainable water management and environmental conservation.

The session featured Dr. V. Subhash Chandra Bose, Former Director of the Water Resources Department, as the keynote speaker. Dr. Bose shared his extensive knowledge and expertise on water resource management and highlighted actionable steps to tackle water-related challenges in our communities.

Key Highlights of the Session:

1. Importance of Water Conservation: Dr. Bose explained the critical need to address water scarcity and how accelerated efforts could mitigate its impact on future generations.

2. **Role of Individuals in Change:** The session emphasized how individuals can lead the way by adopting sustainable practices, ranging from reducing water wastage to supporting community-based water projects.
3. **Interactive Discussions:** The participants engaged in an enriching Q&A session, during which Dr. Bose addressed queries about practical solutions to everyday water-related issues.
4. **Call to Action:** A strong message was delivered urging attendees to take responsibility for creating a ripple effect of positive change in water management.

The session witnessed active participation from students, faculty, and environmental enthusiasts. Attendees expressed appreciation for the practical insights and motivational message shared by the speaker. The talk session was a resounding success, raising awareness about the urgent need for accelerating efforts in water conservation and environmental sustainability. The event concluded with a collective pledge to take meaningful steps toward achieving a sustainable future. The Water Management Cell and Prakruthi Nature Club were praised for their initiative and commitment to fostering awareness and action among the academic community.

Photo Story Contest:

To commemorate World Water Day on 22 March 2023, the MBCET Water Management Cell organized an engaging Photo Story Contest with the theme: "Accelerating Change to Solve the Water and Sanitation Crisis." This contest provided participants with an opportunity to showcase their creativity, storytelling skills, and advocacy for water conservation and sanitation awareness.

Theme: Accelerating Change to Solve the Water and Sanitation Crisis

The contest aimed to:

- **Raise Awareness:** Highlight the importance of accelerating efforts to address global water and sanitation issues.
- **Encourage Creativity:** Inspire participants to use photography as a medium to narrate impactful stories.
- **Promote Advocacy:** Foster a sense of responsibility and inspire solutions among the younger generation.

The Photo Story Contest was a remarkable initiative by the MBCET Water Management Cell to engage the community in creative advocacy for environmental and social issues. By connecting visual storytelling with water and sanitation challenges, the event successfully motivated participants to reflect on their role in driving sustainable change.
