

PRINCIPAL'S MESSAGE

The mother language holds deep significance as it is the first language we learn and the foundation of our identity, culture, and thinking. It connects us to our roots, family, and community, shaping how we express emotions and understand the world. It is also key to preserving traditions and passing heritage to future generations. World Mother Language Day, celebrated on February 21st, highlights the importance of linguistic and cultural diversity. It is a day to promote awareness of mother languages and multilingualism, emphasizing their role in education and identity. UNESCO declared this day in 1999 to protect languages and cultures, especially those at risk of disappearing. India's National Education Policy 2020 makes mother-tongue instruction a cornerstone to build strong literacy and numeracy foundations. The Kerala government launched the "Malayalashree" project in January 2026 to promote Malayalam as the mother tongue in 38 oriental schools across nine districts, allowing students to study it alongside Sanskrit and Arabic. By embracing our mother languages, we foster inclusivity and understanding across cultures. Let's celebrate our linguistic heritage and work to keep languages alive for generations to come.
